# Visitor Management System (ViMS)

**CALMS**  
TECHNOLOGIES

CALMS Technologies simplifies One Card implementation for companies such that they are able to use the one single card for multiple applications and maximize their return on investment in a fully integrated environment. The solution helps customer to automate and improve their business processes in a secure environment thus saving cost & time, increase productivity, ease operation and lastly providing peace of mind to the users.

## PRODUCT INFORMATION:

CALMS Visitor Management System (ViMS) helps facilities to easily screen and track visitors to their building. ViMS enables better management of building security and improved services with more efficient visitor processing.

The system automates the capture of information from MyKad, thus provides validation of visitor and remove potential human error in keying visitor information.

## FEATURES:

- Secure Sign In/Out
- Quick and Easy Registration
- Visitor Card/Paper Badge Printing
- Visitor Form/Slip Issuance
- Photo Capture
- Blacklist Unwanted Visitor
- Pre Appointment Management
- Reporting
- Integration to Third Party Access Control System
