CARD APPLICATION LIFE-CYCLE MANAGEMENT SYSTEM (CALMS®)

CALMS Technologies simplifies One Card implementation for companies such that they are able to use the one single card for multiple applications and maximize their return on investment in a fully integrated environment.

The solution helps customers to automate and improve their business processes in a secure environment thus saving cost and time, increase productivity, ease operation, enhanced security and lastly providing peace of mind to the users.

PRODUCT INFORMATION

CALMS® is the core system required for any smart card implementation. The system has been designed and developed based on open-architecture. It has the flexibility to configure any database, import / export data, integrate and generate reports.

CALMS® is a self customizable, self configured report generator to provide flexibility to the end-user to generate any reports they like based on the information available in the system.
